

# BAD GROUP EXAMPLES

◀ **Wrong side of the animal and too much glare**  
Take pictures of the *RIGHT* side only of the animal (facing or walking to the right)  
**"Right is Right"**

**Too zoomed in** ▶  
Photograph the entire animal (especially for giraffes)

◀ **Too blurry (not in focus)**  
Photograph one animal at a time and make sure that the it is in focus and not too dark

**Animal partially hidden** ▶  
Avoid pictures of animals that are hidden - wait for pictures

# BAD INDIVIDUAL PHOTOS
